What Do the Services Cost?

The Indian Education Program is a federally funded program with financial assistance from the Minnesota Department of Education and the Anoka-Hennepin School District. Program services are available **free** of charge to all American Indian students enrolled in the program. In addition, program staff members are available to serve as a cultural resource to all schools and students in the district.

Parent Committees

The Parent Advisory Committee (PAC) is composed of parents or guardians of American Indian students, school district representatives and secondary American Indian students. A separate committee composed of parents or guardians of JOM-certified American Indian students, works specifically with the Johnson O’Malley Grant (JOM).

The Parent Advisory Committee and Johnson O’Malley committees meet on a monthly basis throughout the school year. They provide an important link with the Indian Community and advise the school district on all aspects of the Indian Education Program.

If you are interested in serving, please contact your cluster advisor for more information.

All parent committee meetings are open to the public. Please check our calendar of events for dates, times and locations.
