

## Finding Transfer Matches and How Courses Apply to a Program

How Transferology can help:

To make your transfer to another college or university as easy as possible, Minnesota State Colleges and Universities has partnered with [Transferology](http://www.transferology.com) – a nation-wide network designed to help answer the question “Will my courses transfer?” If you are interested in transferring credit, we encourage you to create a Transferology account, add or import your coursework, find out how your courses might transfer, and find out how your courses apply to a program or variety of programs. You can also create future coursework and program scenarios.

Transferology also provides information on transfer of military credits and standardized exams, including advanced placement and college level exams.

Go to [www.transferology.com](http://www.transferology.com)

Create an account or login to your existing account.

To begin finding transfer information, you should enter or import the courses you have taken, courses you are currently taking, or even courses you plan to take in the future.
