
PEEK AT THE WEEK

Dear Families,

Happy Thursday! This week went by fast. We learned all about how trees grow and how we can take care of them. We also talked about how to identify feelings, while practicing taking deep breaths to calm our bodies if we are feeling anxious.

What did we work on this week?

Our class read Growing Trees and Our Tree Named Steve this week. We also learned strategies for identifying feelings, while making connections to the Zones of Regulation. Each day we talked about words that start with our letter of the week (C), how to write the letter in both uppercase and lowercase, and what sounds it makes. We practiced noticing words that rhyme, and learned about 3-D shapes at small group. At the art table, we created art like an architect and got messy finger painting.

What will we do next week?

- Begin our next Study - Reduce, Reuse, Recycle!
- Read the book Paper Bag Princess.
- Learn about what it means to recycle.
- Letter of the week: O
- Create art with recyclables
- Practice making patterns and matching rhyming words
- Learn how to be a recycling center worker at dramatic play

Reminders:

- **We do not go out to recess when there is snow on the ground, therefore you DO NOT need to send your students to school with snow gear. Just enough gear to keep warm getting to and from the school bus.**
- **Please RSVP if you will be joining us for our KR Family Event Night happening on Nov 15 from 5-6pm at SECC.**
