### **Indian Education Program**

**Advisor:** [Mindy Meyers](#)

The Indian Education Program is open to all Native American students. Students who participate in the program have the opportunity to participate in group meetings twice a month, on top of the 1:1 support they receive through the program. Groups are typically planned around various cultural topics, historical events, self-care, and/or current events. We also make time to talk about career/college planning, and occasionally invite guest speakers to come in. In general, our group time is meant to create space for Native Students to get together, learn together, and

support each other. We don't have a "set" meeting schedule at this time. Students are typically notified at the beginning of the month when we will have our meetings.
