<p>Reading: We've been doing a lot of work with citing text evidence and comparing two sources when we read. Students can access many connected resources through the Wonders webpage, which they are welcome to use at home. We've written one personal narrative, and are also working on short research projects. * Word work and fluency homework sheets come home each Wednesday in the Wednesday folder. Please return them the following Wed.</p>	<p>Math: The 4th graders are practicing computation strategies, and will be starting more work with multiplication and division.</p>	<p>Our character trait for October is respect. We will be practicing this trait and looking for great examples of this in our class!</p>
	<p>Science: 4th grade will be learning about heat transfer in water, evaporation, and the water cycle. Students will also be working on experiments with water in our world – water from homes, ponds, and so on.</p>	<p>Mark Your Calendar: Conferences: October 2, 4, and 8. Please sign up online using the Morris Bye homepage - www.ahschools.us/morrisbye. Look under the calendar section to click on the link to sign up.</p>

This document will be produced in an alternate format upon request. Please call Morris Bye at 763-506-3700 to request an alternate format.
