

Name _____ Date _____

Hypothesis

Due Date: February 2, 2011

This is a statement that explains what you think is going to happen in your experiment. It is an educated guess - not the actual result.

example: What soap will clean your hands best?

Hypothesis: I think the hospital soap will clean someone's hands better than the other two soaps because a surgeon's hands need to be absolutely without germs.

My hypothesis:

Due date: February 2, 2010

Rough draft ... rough draft... rough draft...rough draft...rough draft...
Retype and mount on construction paper to be placed on science fair board.
