Name_____

Date: January 25, 2011

Problem/Purpose Statement:

_____

_____

_____

_____

_____

__

This statement will explain what you are going to find out in your science experiment.

example: What soap will clean your hands best?

In my experiment, I will take 3 different types of soap. I will clean my hands with each of them and place my fingers into a petri dish. I will then observe the dishes to watch to see if any bacteria grows. I will take photos to keep track of the growth.
