	Small Gas Engines II – Inc	dependent Engin	e Project
•	You should provide this sheet as a cover so You must get approval of your project to	receive full credit	rocess
0	Teacher Approval Initials before you begi	n	
1. 2.	What is the small gas engine from? (ex. S Give a brief description of the Engine and are many parts so this section may be of	Function. What does it ope	rate on the machine (There
3.	Provide a preliminary description of the p class for your project. STOP/Yield after yo		ringing this engine into the
4.	Provide a complete list of processes as you complete the repair/maintenance of the engine/machine. (There are many steps to this section). Stop daily (as to label the date. Similar to a diary) to write down/list your steps.		

Remember: There is a great deal of information and I am asking that you now take the time to "do a good job" with this information. It will make your process of working on your engine much easier. This is the Why and How of the class. Thanks.
