

ACTIVITY 11

Say the Name and Picture

PURPOSE:

To build automaticity with known letters.

SUPPLIES:

Kindergarten alphabet chart

Magnetic letters

GOAL:

All kindergarten students will identify capital and lowercase letters, with accuracy and fluency.

TIMELINE:

Students may move on to another activity when they are able to quickly locate and name letters while placing them, one at a time, on the alphabet chart.

PROCEDURE:

1. Place letters that occur in the student's name, next to the student.
2. Say: "Say the name and the picture of each letter, as you place it on the alphabet chart."
The student names each letter and picture as he/she places the letter on the chart.
3. Say: "Tell me the name of each letter as you take it off the chart."

Note: *Once a student can place the letters of their name on the chart quickly, add new letters to the collection.*
