

STAFF LOUNGE EQUIPMENT & SUPPLIES

Appliances such as Coffee Makers, Microwaves, and Toasters **must be commercially rated** if being used in a District school/office/staff lounge. *(Items used in FACS classes are exempt from this requirement)*

Coffee Pots/Makers

Per the Fire Marshall, all coffee makers must be rated/graded '**Commercial**'. Commercial coffee makers have a three prong plug and somewhere on the coffee maker it will state that it is Commercial. This could be conveniently labeled on the front or hidden on the label underneath. District policy also requires that the commercial coffee maker have an automatic shut off function.

*** Please note that some coffee makers are described as "*Commercial Style*", this does **NOT** mean it is rated/graded 'Commercial'. "*Commercial Style*" refers to the appearance of the machine only, **NOT** the rating/grading. Prices for commercially graded coffee makers typically range from \$275-\$500 and will require a quote prior to a Purchase Order being entered. Please refer to the machine specifications to determine if it is rated/graded 'Commercial'.***

STAFF LOUNGE EQUIPMENT & SUPPLIES
