

## **Adaptation Project**

**GOAL** – Take a short story and adapt it for the stage.

### **Guidelines:**

1. Choose a children's book or other short story.
2. When adapted it must be adapted for a stage production and not a film.
3. The script must follow proper play script format.
4. Script will need dialogue and stage directions.
5. Material you adapt must be middle school appropriate.
6. Must be a minimum of 14 hand written pages or 7 typed pages (for the sake of time please do not write more than 20 hand written and 10 typed).
7. You should write neatly as these will be read aloud by the class in both a first draft and final draft.
8. There must be changes made to your script, based on the feedback you receive from the instructor and classmates, before you present the final version.
