

ANOKA-HENNEPIN SCHOOLS

ELEMENTARY SCHOOL SPECIALTY & MAGNET PROGRAMS

Anoka-Hennepin specialty and magnet programs provide family choice within our district schools. Students may enroll in a specialty program via the in-district transfer process without transportation. Anoka-Hennepin students who enroll in a magnet program through the Northwest Suburban Integration School District (NWSISD) will receive free transportation.

CHAMPLIN- BROOKLYN PARK ACADEMY

Math and Environmental Science

Through an integrated curriculum, students receive a unique learning experience emphasizing math and environmental science. This is made possible by our on-site nature center, greenhouse and gardens, math lab, and strong community partnerships.

HOOVER ELEMENTARY SCHOOL

Biomedical, Health Sciences and Engineering

Hoover Elementary is a STEM-H School focusing on Biomedical, Health Sciences, and Engineering. Our students focus on human body systems and the biomedical and technological innovations that keep us healthy. Students learn about different body systems and become "experts" each year.

LINCOLN ELEMENTARY SCHOOL

School for the Arts

Lincoln is the only Arts Specialty elementary school in the Anoka-Hennepin School District, and we value authentic arts integration, diverse arts residencies and field trips, and equitable access to visual and performing arts opportunities for all students. Our belief that all children are creators and explorers guides our mission, and we encourage our students to discover their artistic passions.

MONROE ELEMENTARY SCHOOL

Mathematics, Science and Children's Engineering

Project Lead the Way Launch allows students to explore engineering, computer programming and science concepts in a fun, engaging and collaborative way. STEM education encourages students to use creative problem solving strategies to plan and design new technologies using the Engineering Design Process.

UNIVERSITY AVE ELEMENTARY SCHOOL

Aerospace, Children's Engineering and Science

Students who attend our school have an added focus on aerospace, engineering, and science and learn about these areas in and outside of school. Field trips are designed as hands-on learning experiences that increase background knowledge and enrich learning.
