

ANOKA-HENNEPIN SCHOOLS

MIDDLE SCHOOL SPECIALTY & MAGNET PROGRAMS

Anoka-Hennepin specialty and magnet programs provide family choice within our district schools. Students may enroll in a specialty program via the in-district transfer process without transportation. Anoka-Hennepin students who enroll in a magnet program through the Northwest Suburban Integration School District (NWSISD) will receive free transportation.

ANOKA MIDDLE SCHOOL

ARTS Specialty Program

Anoka Middle School for the Arts (AMSA) offers an integrated and rigorous learning experience in and through the arts. In addition to arduous core classes, the extensive arts curriculum provides students the opportunity to explore performing, visual, technical, and literary art courses in depth. AMSA students work with professional guest artists, explore thematic subject connections during cross-curricular days, visit live performances, participate in educational field trips, and engage in public showcases. These experiences create collaborative and creative environments, build student confidence, and engage them in learning.

JACKSON MIDDLE SCHOOL

STEM Specialty Program

At Jackson Middle School all students experience a wide range of science, technology, engineering and math opportunities through inquiry-based integrated learning opportunities. Each grade level has trimester themes that provide students relevant connections between their classes. Students participate in educational field trips and guest speakers to enhance those themes. The additional specialty school elective courses also available to students are astronomy, environmental science, science fiction and PLTW engineering courses.
