

## Letter Sounds Song (4-5 year old classes)

We have started doing a letter sounds song by Barbara Milne. (You can find the song on iTunes and a video of it on YouTube).

We have printed out the sheets, back to back and laminated them. Each child holds one of the sheets and gets a fancy pointer (a sparkly straw cut in half).

While the song plays, we all point to the pictures and letters while we learn the alphabet sounds.

This song not only reinforces letters and letter sounds but it is a great way for children to get used to "reading" left to right. It helps to train their eyes to read left to right and to look for the next line of text. The children love it and enthusiastically look forward to the activity.
