

## Obstacle Course

We used part of our fall fundraiser money to purchase some numbered "step rocks" to help make an obstacle course in the hallway outside our classroom. We combined the steps with a tunnel, a balance beam and a mini trampoline to make a great obstacle course! The children love it and it has been just the thing to get the wiggles out while the snow melts on our outdoor play space.

The obstacle course reinforces number recognition and helps children with balance, coordination, patience (they have to wait in line if there are a lot of children using the obstacle course) and is just plain FUN!
