

Miss Lindh proudly presents the...

Peek at the Week

January 22-28, 2020

Reminders:

- Class pictures will be taken TOMORROW by 'Portraits from the Heart' photography - if you want to purchase one, please return the envelope send home last week along with payment.
- THANK YOU to those families who let me know when/why your child will not be at school! It is greatly appreciated when you communicate this with me, it is our program policy and an expectation that you do so.
- Some children still do not have WINTER boots; fashion boots and shoe boots are NOT acceptable footwear for your child to have when playing in the snow on the playground.
 - If you cannot afford winter boots, please let me know so that I can make arrangements to get some for your child.
- In addition to sending your child's winter gear DAILY, please make sure to send SHOES (in addition to their boots) to wear when in the classroom.

This week we will...

- Have class pictures taken and dance to GoNoodle movement songs on Thursday, January 23
- Practice writing our names, sorting objects, and identifying numerals during our small group time
- Visit the library on Monday, January 27
- Play in the gym on Tuesday, January 28, instead of playing outside on the playground (make sure to send tennis shoes!)

Try it at Home:

- Find the math hidden in your every day life - how many steps from the car to our house/apartment? Who has more _____ (insert food here) on their plate? If we first put away three toys, and then put away two more, how many toys did we put away in all? --- Doing math with your preschooler does not need to be formal or complex, simply look at the things you already do, and find opportunities to count, find numerals or shapes, compare size or number of items, sort things into groups etc.
- Practice identifying the feelings of characters in books you read with your child, asking, 'How do you think _____ is feeling?' 'How do you know?'
- Help your child identify each letter in his/her first name.
