

Go Fish 5 or 10:

(Use 10 frame cards or 4 sets of numeral cards 1-9)

Works on combinations to make 10

Deal each player 7 cards and put the rest face down in a pile. Check to see if you have 2 cards in your hand that can make 10 when added together. Put these pairs down in front of you. Now look at the cards you have left and ask your partner for a specific number that you need to make 10. Ex. Say “ I have ____ do you have a _____? If your partner has it, he/she will give it to you. If not, your partner will say “Go Fish” and you will take a card from the face down pile in the middle. The winner is the person who gets rid of all of his/her cards after the middle pile is gone, or whoever has the most matches.
