

## **Take Your Place:**

**(id & ordering)** Roll 2 or 3 dice depending on what numbers you want to practice identifying and ordering (2 or 3 digit numbers). Player 1 rolls 3 dice. Creates a 3 digit number, identifies it. Player 2 does the same. Mom/Dad ask “Which is more 123 or 109? Where should 123 be?” Player 1 rolls again. Ask: “Is it higher or lower than 109? Where should it go? Continue until you have 5 numbers created. Read each number and check to be sure they are in order.
