

# Count

Use a paper clip and a pencil as a spinner.

Player 1 spins and counts back 3 from the number they land on. They put a chip in each space on their game board that has that number.

Player 2 takes a turn and does the same.

The player who gets 3 in a row up, down, across or diagonal wins.

# Gameboard

1	2	3	4	5	6	7	8	9	10
11	12	13	14	15	16	17	18	19	20
21	22	23	24	25	26	27	28	29	30
31	32	33	34	35	36	37	38	39	40
