

**Fire It!:** Use 10 frame cards and your fingers for this activity.

Place stack of 10-frame cards face down in a pile. Pick the top card. Fire how many the number shows with your fingers. If you pick a 6, show 6 on your fingers. You may be able to do this without counting. Some you may build with counting. Practice until automatic.

Variation: Use the Make10 Bingo board. After picking a card and firing it on your fingers you can cover that number with cheerios or pennies on the bingo board. Five in a row wins!
