

## **Go Fish 5 or 10** (five or ten-frame cards)

(Works on combinations to make 5 or 10)

Deal each player 7 cards and put the rest face down in a pile. Check to see if you have 2 cards in your hand that can make 5 or 10 when added together. Put these pairs down in front of you. Now look at the cards you have left and ask your partner for a specific number that you need to make 5 or 10. Ex. “ I have \_\_\_\_ do you have a \_\_\_\_\_?” If your partner has it, he/she will give it to you. If not, your partner will say “Go Fish” and you will take a card from the face down pile in the middle. The winner is the person who gets rid of all of his/her cards after the middle pile is gone, or whoever has the most matches.
