

**Tic Tac Toe** (works on 1 more/1less, partners)

Each partner needs a different color to write with.

Flip a coin or roll a die to see who goes first.

(Use 100 grid as support if needed)

Mom or Dad draw a tic-tac-toe board on a piece of paper and pick 9 random numbers up to 30 to fill up the board.

\*First person. Pick any # from the tic-tac-toe board. Record the number in your color that is one more or one less than the number on the board.

\*Second person chooses a number on the board to record the number that is 1 less or 1 more in his/her color. Goal is to get 3 numbers of your color in a row, just like tic-tac-toe.
