

Make It!: Use 4 sets of 1-9 or 10 frame cards.

Draw a tic-tac-toe board on paper. Fill the board with random numbers from 6-9 repeating numbers will be necessary. Pick a card. Name or show 1 way to build that number using fingers, numbers or 10 frames. If correct write the number model under the number on the tic-tac-toe board. When you get three number models or equations written in a row or fill the board before your partner, the game is over.
