

Speed It (Use 10 frame cards up to 20, 2 players)

Make two equal piles. One pile goes to each player. Put them face down. Each player picks 5 cards from his/her pile. Each pick the top card from own pile and place it face up next to the face down pile. Start at the same time. You put a card down that is 1 more or 1 less than the cards that are face up. You can play off of each other's face up cards. Move quickly and keep going to try to beat your partner in getting rid of all of your cards. You do not take turns in this game, but you only can lay down one card at a time.

Rule: Always have 5 cards in your hand, so get more from your pile when needed.
